THE 6 S'S OF WINE TASTING

- SEE** The color of the wine will help guide you through the rest of the steps. Darker wines tend to be more bold than lighter colored wines which tend to be more crisp and refreshing.
- SWIRL** Swirling the glass will infuse air into the wine and allow scent molecules to enter the air in the glass.
- SMELL** Smell of wine is subjective. Each person can pick up on a different note in the wine!
- SIP** With the first sip of wine, swish it around your mouth and then swallow. This sip is to prepare for the wine.
- SLURP** With the second sip, suck some air into the wine as you “slurp” in a taste. This allows the air to open up the wine.
- SAVOR** Now it is time to enjoy the wine and to contemplate all of the wonderful menu items to enhance your chosen wine!
