## THE 6 S'S OF WINE TASTING

- SEE.....** The color of the wine will help guide you through the rest of the steps. Darker wines tend to be more bold than lighter colored wines which tend to be
- SWIRL...** more crisp and refreshing  
Swirling the glass will infuse air into the wine and allow scent molecules to
- SMELL...** enter the air in the glass
- SIP.....** Smell of wine is objective. Each person can pick up on different notes in the wine!
- SLURP...** With the first sip of wine, swish it around your mouth and then swallow. This sip is to prepare for the wine
- SAVOR...** With the second sip, suck some air into the wine as you "slurp" in a taste. This allows the air to open up the wine
